

10 Ways to SAVE WATER!

- ✓ Spend less time in the shower. Even 5 minutes less saves 20 gallons!
- ✓ Turn off the faucet while brushing your teeth and save 4 gallons!
- ✓ Don't use a new dish or glass every time; less dishes = more time to play!
- ✓ Regularly check pipes for leaks and fix immediately.
- ✓ Water your lawn only when it needs water...or better yet – switch to water-wise plants instead!
- ✓ Don't run the water hose while washing a car, only run it while rinsing.
- ✓ Use brooms to clean pathways and walls, not the hose.
- ✓ Don't use the toilet as an ashtray or wastebasket.
- ✓ Wash fruits and vegetables in one bowl instead of washing each piece separately.
- ✓ Use "dirty" water from your fish tank for watering plants. They love fish poop!

Thank you!
