

"All About That Earth" Lyrics

Because you know I'm all about
that Earth, 'bout that Earth, don't
trash it.

I'm all about that Earth, 'bout that
Earth, don't trash it.

I'm all about that Earth, 'bout that
Earth, don't trash it.

I'm all about that Earth, 'bout that
Earth, Earth, Earth, earth, earth....

Yeah it's pretty clear, I love this
planet too

But I can't fix it, fix it without
some help from you.

We got this Drought Drought its
dryin' up our lakes

We put all the wrong plants in all
the wrong places.

We see those plastic bags they're
blowing everywhere

But don't get down my friend,
because somebody cares

If you see litter litter, just pick it
up

Cause many things can be recycled
from the bottom to the top.

Yeah my momma she told me to
stop waterin' all that grass

If we keep wasting water like that
it will never last.

You know I won't turn my back,
yeah you've heard it throughout
this song

So, if that's what you're into Then
go ahead and sing along!

*Because you know we're all about
that Earth, bout that Earth, let's
save it!*

*We're all about that Earth, 'bout
that Earth, let's save it.*

*We're all 'bout that Earth, 'bout
that Earth, let's save it.*

*We're all about that Earth, bout
that Earth!*
