

GROWING GARDENERS CLUB

A cool season crop is a plant that grows well in cooler temperatures! San Diego's cool season is from December to March.

Below are some cool season crops.

___ I grow underground and rabbits love me. What am I?

A. Lettuce 

___ I am green and have a head. What am I?

B. Onion 

___ I am delicious on bread, but vampires fear me! What am I?

C. Broccoli 

___ I can be red, white or, green. I can make you cry but I am not mean. What am I?

D. Garlic 

___ I am an edible mini tree! What am I?

E. Carrot
